

Taking up the challenge of various business to deliver the pleasures of good eating and the joys of health

We are also working to develop various other business related to food and health to deliver the joy of eating and help enhance the pleasures of good eating and health.

Meat extracts business

Nippon Pure Food, Inc. produces and sells natural seasonings and processed meat products. It steadily supplies soups, bouillon, sauces, and gravies adapted to market needs. It also creates original flavors in response to requests from family restaurants, nighteries, and delicatessens.

Takidashi-gara Soup

Freeze-dried foods business

Tapping the deep store of know-how accumulated right from the birth of Japan's freeze-dried food industry, Nippon Dry Foods, Co.,Ltd. supplies quality products on a stable basis with facilities featuring the largest production capacity in the country. It is working to develop a diversity of products while continuing its pursuit of the ultimate in simplicity represented by freeze-dried foods.

Solid soup stock for enjoyment of all sorts of flavors

Beauty and health products

The Group is also engaged in the development and sales of foods with health-promoting effects, such as “allergy-safe” products, sports foods, and food items for beauty and health. In keeping with its objective of powerful support for health, our Research & Development Center develops food products that can be consumed with peace of mind even by people with food allergies, and beauty-enhancing foods grounded in health promotion. In addition, our subsidiary Nippon Ham Health Creation Co., Ltd. is developing business in mail-order and on-line sales of health foods.

Collagen Plus, for simple ingestion of collagen merely by mixing into juice etc.
